### **UNPUBLISHED DECISION**<sup>1</sup>

On July 1, 2020, the parties filed a joint stipulation concerning the petition for compensation filed by Randall Puckett on April 19, 2018. Petitioner alleged that the influenza (“flu”) vaccine he received on September 22, 2016, which is contained in the Vaccine Injury Table (the “Table”), 42 C.F.R. §100.3(a), caused him to suffer shoulder injury related to vaccine administration (“SIRVA”). Petitioner further alleges that he suffered the residual effects of this injury for more than six months. Petitioner represents that there has been no prior award or settlement of a civil action for damages on his behalf as a result of his condition.

Pursuant to Vaccine Rule 18(b), the parties have 14 days to file a motion proposing redaction of medical information or other information described in 42 U.S.C. § 300aa-12(d)(4). Respondent denies that the vaccines either caused or significantly aggravated petitioner's alleged injury or any other injury, and denies that petitioner's current disabilities are the result of a vaccine-related injury.

Nevertheless, the parties agree to the joint stipulation, attached hereto. The undersigned finds said stipulation reasonable and adopts it as the decision of the Court in awarding damages, on the terms set forth therein.

Damages awarded in that stipulation include:

- a. A lump sum payment of \$7,237.77, representing reimbursement of the State of West Virginia Medicaid lien, in the form of a check payable jointly to petitioner and:**

**Petitioner agrees to endorse this check to the state of West Virginia.**

- b. A lump sum of \$100,000.00, in the form of a check payable to petitioner, which represents compensation for all remaining damages that would be available under 42 U.S.C. § 300aa-15(a).**
